It is time for retraining if you didn't know

Law enforcement agencies across the United States are facing unprecedented challenges and significant hardships in recruiting, hiring, and training personnel who are both representative of their communities and capable of carrying out the duties of a 21st Century Professional.

Both state and federal appellate courts have issued very important guidance on topics such as voluntary waivers, prior illegal conduct, medical marijuana, and returning veterans, as well as how disparate impact affects the process.

POST's Youth Academy Program may be our salvation for the dwindling pool of qualified peace officer and public safety dispatcher applicants, and POST has also revised some key selection standards for these positions, including grace periods.

The Background Investigation Update Course

Is a P.O.S.T. Certified Course (5010-30330) offered around the State to encourage participation by commuting/local area students. There are numerous hotel/motels of every brand and price range in the Sonoma County area, but lodging is the students' responsibility.
